ACCESS TO LIBRARY HOLDINGS
The library collection is in two major formats: Print and Electronic based. Access to the print resources is done through the library catalogue (Sirs Mandarin). The OPAC (Online Public Library Catalogue) is the interface through which users identify the print
information resources. The print resources are arranged according to the Library of Congress Classification Scheme. This scheme uses a mixed notation i.e. a combination of both letters and numerals e.g. HB 35 (A book with classification H is primarily under social sciences, and adding B and 35 to H indicates that it is specifically under the subcategory of Economic theory). Using the Library of Congress Classification scheme, knowledge/subject areas are arranged from A-Z as follows:

Users are advised to first consult the library OPAC in order to get the Call Number of the book they require before they proceed to the shelves. The call number is printed on the spine of the book. Library users are advised not to shelve books after using them but to leave them on the tables.
